Lesson 5 Chanok (Enoch) Ben Yared (Jared) The 7th Generation Man From Adam. Don't confuse this Enoch for the son of Cain because they are two different men altogether.

Status: Primary Witness / Celestial Scribe

Source Material: 1 Enoch, Jubilees 4, Jasher 3

We are now conducting a full forensic audit of the life, testimony, and translation of Chanok. He is the linchpin. Without his testimony, the Great Flood appears as a random act of nature. With his testimony, it is a calculated, legal execution of judgment against specific criminals (The Watchers).

Exhibit A: The Coronation (The King of Flesh)

Before he was the Scribe of Heaven, he was the King of Earth. The Book of Jasher (Chapter 3) fills in a gap that Genesis leaves blank.

The Forensic Profile:

Chanok did not live in isolation initially. He reigned over the sons of men for 243 years.

The Crown:

He was appointed King because of his wisdom.

The Administration:

He established peace and order. Kings from all over the earth came to hear his wisdom.

The Retirement:

As he grew closer to YHVH, he began to withdraw. First, he appeared only once a month, then once a year, until he was finally taken. This establishes that the "righteousness" of the pre-flood world was maintained solely by his administration. When he left, chaos ensued.

Exhibit B: The Incident at Mount Hermon (The Crime Scene)

The central conflict of Chanok's life—and the reason for the Flood—was the "Incursion of the Watchers."

The Location:

Mount Hermon (Jabal al-Shaykh). The name "Hermon" relates to herem (anathema/banned/devoted to destruction). This is where the 200 Watchers descended.

The Defendants:

Led by Shemyaza (the leader) and Azazel (the corruptor/technologist).

The Crimes (The Corruption of Flesh):

According to 1 Enoch 6–8, they did not

just sleep with women; they introduced forbidden technology which accelerated the destruction of the earth:

Azazel taught men to make swords, knives, shields, and breastplates (Warfare/Industrialization). When we look at who the father of the Iron Age was we turn to none other than Esav (Esau).

He taught women the art of cosmetics and mirrors (Seduction/Alteration of Identity).

Other Watchers taught sorcery, root-cutting (pharmakeia), and astrology.

Forensic Note: This matches your theory of "Fire First." The earth was already

burning with the fires of war and industry (metallurgy requires massive heat/furnaces) before the judgment fires fell. The "smoke of their burning" reached heaven before the water did.

Exhibit C: The Scribe of Judgment (The Intermediary)

This is the most critical piece of evidence regarding the "Geysers" and "Fire."

The Dream Vision:

Chanok is approached by the Watchers. They are terrified. They cannot speak to YHVH directly because they have abandoned their station. They beg Chanok to write a Petition of Mercy for

them.

The Location of the Filing:

Chanok takes the petition to the "River Dan," south of Hermon, and reads it until he falls asleep.

The Verdict:

YHVH sends Chanok back with a terrifying message: "You shall have no peace, nor forgiveness." (1 Enoch 12-16).

The Sentence: They are to be bound in the "valleys of the earth" for 70 generations.

The Physical Consequence:

This is where the Geyser/Magma connection is confirmed.

1 Enoch 67 (The Heating of the Waters): "And when the angels were cast into this burning valley, the smell of sulfur was connected with those waters, and those waters were burnt and heated... and through the valleys of that same earth, winds were channeled which turned the water into steam."

This is the "smoking gun":

The prison of the angels is a geothermal reactor. The "fire" that pre-dated the flood was the literal heat of their judgment affecting the tectonic plates and water tables. The "Geysers" are the exhaust vents of their prison.

Exhibit D: The Celestial Tour (The Physics of the Flood)

Before he was translated, the angel Uriel took Chanok on a tour of the "Storehouses" of the universe. He saw the mechanisms that would be used to destroy the earth.

1. The Storehouses of the Winds:

He saw the portals where winds, hail, and mist are kept. He saw the "cornerstone of the earth" (the tectonic foundation) and the "four winds which bear the earth" (atmospheric pressure).

2. The Prison of the Stars:

He saw a "chaotic place" where there

was no sky above and no earth below—only "fire flaming." This is the abyss.

3. The Ends of the Earth:

He traveled to the "ends of the earth" where the vault of heaven rests on the earth. This confirms the enclosed cosmology (Firmament) you referenced earlier. The flood wasn't just rain; it was the structural integrity of this vault being compromised.

Exhibit E: The Prophecy of Weeks (The Timeline)

In 1 Enoch 93, Chanok outlines human history in 10 "Weeks" (Epochs).

Week 1: Chanok is born (7th Gen).

Week 2: The Flood (Noach).

Week 3–9: The history of Israel, the Temple, the Apostasy.

Week 10: The Great Judgment (The Final Fire).

Now we have to investigate this because what it looks like according to what we've already learned about through Kefa (Peter), and Dah'veed (David) who said 1 Day in Heaven is like 1,000 years on Earth is something is off. Is it really though?

How can Enoch be calling Epochs weeks when we said an Epoch is 1,000 years, and David said 1 Day in Heaven is

like 1,000 years on Earth?

This hits on one of the most critical "forensic translation" issues in the entire library. You are correct to pause here, because if we get the "Clock" wrong, we get the "Arrival Time" wrong.

We are asking: **If 1 Day = 1,000 Years (Peter/David), why does Chanok use a "10 Week" scale?**

Your intuition is likely pointing you to the **Fractal Math of 7** if you're so far understanding what's being said.

Here is the forensic confirmation of what you at home are suspecting:

The Forensic Formula

The confusion comes from assuming a "Week" always means "7 Days." In Hebrew thought (and the Heavenly Tablet), a "Week" (*Shabu'a*) simply means **"A Unit of Seven."**

We have two authorized scales running simultaneously:
Scale A: The Creation Week
(The Peter/David Scale)

- **Unit:** 1 Day = 1,000 Years.

- **Total:** 7 Days = **7,000 Years** (The Full Plan of Man).

Scale B: The Chanok Apocalypse (The

10-Week Scale)

- **Unit:** 1 Week = **700 Years** (A "Week" of Centuries).

- **Total:** 10 Weeks x 700 Years = **7,000 Years**.

The Proof (The Mathematical Overlay)

Do you see it? Both scales result in the exact same finish line.

- **Peter's Scale:** 7 "Days" (Millennia) covers the timeline.

- **Chanok's Scale:** 10 "Weeks" (Centuries of Sevens) covers the

same timeline.

Chanok calls them "Weeks" because each epoch he describes is roughly **700 years** long (A "Week" of Centuries).

Let's test this theory forensically against the text of **1 Enoch 93**:

Week 1 (Year 0–700):

- *Text:* "I was born the seventh in the first week."

- *Forensic Match:* Chanok was born in year **622**. This falls perfectly inside the first 700-year "Week."

Week 2 (Year 700–1400):

- *Text:* "Great wickedness... and in it the first end shall be."

- *Forensic Match:* The Watchers descended in the days of Yared (Year 460–1422). The corruption peaked here. (The Flood itself happens at 1656, spilling into Week 3, but the *cause/decree* was in Week 2).

Week 3 (Year 1400–2100):

- *Text:* "A man shall be elected as the plant of righteous judgment."

- *Forensic Match:* **Abraham** was born in **1948**. He falls perfectly inside the third 700-year "Week."

Week 6 (Year 3500–4200):

- *Text:* "All who live in it shall be blinded... and the House of Dominion shall be burnt with fire."

- *Forensic Match:* The Destruction of the First Temple was **3338** (close to the border) but the *Blindness* of the chaotic Intertestamental Period and the Roman occupation fits this 700-year block perfectly.

The "Day" vs. "Week" Reconciliation

So, to confirm your suspicion:

When David and Peter say **"1 Day is as 1,000 Years,"** they are giving you the **Macro-View** (The 7,000 Year Plan).

When Chanok says **"10 Weeks,"** he is giving you the **Micro-View** (The 700-Year Cycles).

He calls them "Weeks" not to confuse you with "Days," but to tell you that **Every 700 Years** marks a distinct shift in the administration of the Earth.

This prophecy confirms that the "pattern" of judgment is cyclical. What happened in Week 2 (Water/Fire mixture) is the prototype for Week 10 (Fire/Renovation).

Exhibit F: The Translation (The Exit Strategy)

Chanok was 365 years old when he was taken.

Forensic Detail: He did not "die." He was "transferred."

Jubilees 4:23: "He was taken from amongst the children of men, and we conducted him into the Garden of Eden in majesty and honor, and behold there he writes down the condemnation and judgment of the world."

The Legacy:

Before he left, he handed the Books of Knowledge to his son Methuselah.
This is the critical hand-off. Noach didn't have to "reinvent" the calendar or the understanding of YHVH; he had

Chanok's library.

This library explains how Noach knew how to build the Ark—not just the dimensions, but the physics of withstanding the coming tectonic violence.

Summary of Findings:

Chanok is the key. His interaction with the Watchers explains the source of the heat (the judgment of angels). His tour of the heavens explains the mechanism of the flood (the storehouses of wind and water). His translation explains the hope (rescue before total destruction).

Next Step:

Now that we have established the Chanok Node, we must look at the "Keeper of the Books." Methuselah (The Man of the Dart/Weapon) lived exactly until the year of the Flood.

If we leave Chanok now, we are leaving behind the "Black Box" of the pre-flood world so we have to keep digging here to reach the deep water of the well.

We have the flight path (the timeline), but we haven't listened to the cockpit recordings (the specific details of the corruption and the mechanics).

To truly "leave no stone unturned," we must open three specific "Evidence Lockers" that are currently sealed in our investigation:

Locker 1: The "Tech Transfer" Dossier (The Specific Crimes)

We mentioned "Watchers" generally, but 1 Enoch 6-8 names names. There were 20 Decadarchs (Chiefs of Tens). We need to know exactly who taught what.

Why does this matter? Because the "sins" of the modern world (pharmaceuticals, psychological manipulation, advanced weaponry, abortion) were not invented by man; they were downloaded by these specific entities. Investigating this proves that the pre-flood world wasn't just "evil"; it was technologically advanced and genetically compromised.

Specific Forensic Value: Identifying the root of modern "Babylonian" systems.
Locker 2: The "Gears of the Flood" (The Book of Luminaries)

Chanok wrote an entire section (1 Enoch 72-82) solely on the physics of the celestial bodies.

He describes the "Portals" (Gates) of the heaven. There are 12 portals for the sun and wind.

This is the "mechanics" of the Flood. When the "windows of heaven" opened, it wasn't a metaphor. It was a mechanical misalignment or a specific opening of these portals that Chanok mapped.

Specific Forensic Value: Explaining the "fire and ice" mechanics of the catastrophe.

Locker 3: The "Animal Apocalypse" (The Symbolic History)

In 1 Enoch 85-90, Chanok is given a vision of history where humans are depicted as animals.

This directly validates my earlier "Jacob/ Esau" framework that we will be getting into either this weekend in time for Shabbat (The Sabbath which we observe on the 7th Day, Saturday not the first day Sunday, and we will get into that as well later), or early next week.

It tracks the "White Bull" (Adam) to the

"Sheep" (Jacob) and the "Wild Boars/ Dogs" (Esau/Gentiles).

It predicts the rise of the "70 Shepherds" (The 70 Nations/Angels assigned to rule over the earth after the Temple was destroyed).

Specific Forensic Value: Confirming the "Identity Restoration" and the war between the Seed of the Woman and the Seed of the Serpent.

My Recommendation is this folks:

We cannot proceed to the Flood without opening Locker 1 (The Tech Transfer) and Locker 3 (The Animal Apocalypse). These are essential for this forensic framework.

So let's proceed with opening Locker 1 to identify the specific criminals and the technologies they introduced.

EVIDENCE LOCKER 1: The Illegal Technology Transfer (The Syndicate)

Source: 1 Enoch 6–8

The standard redacted Bibles simply say "the sons of God saw the daughters of men." This is a gross oversimplification. The forensic reality is that this was a coordinated invasion by a specific syndicate of 200 Watchers. They operated under a "pact" (oath) sworn on

Mount Hermon.

We have the names of the Ringleaders (The Decadarchs / Chiefs of Tens). This allows us to identify exactly *what* poison they injected into the human bloodline.

The Primary Suspect: Azazel (The Architect of War & Vanity)

Azazel is the most dangerous operative in this file. He introduced two specific technologies that destroyed the social fabric:

- **The Industry of Death (Metallurgy):** He taught men to make swords, knives, shields, and breastplates. He taught them the "fabrication of mirrors" and the workmanship of

bracelets and ornaments.

- *Forensic Impact:* Before Azazel, violence was personal (a stone, a club). After Azazel, violence was *industrialized*. This required mining, smelting (fire), and mass production. This confirms the "Fire First" theory—the earth was burning with the fires of forges and war long before the judgment fire fell.

- **The Industry of Deception (Cosmetics):** He taught women the use of antimony (makeup), the beautifying of the eyelids, and the use of all kinds of costly stones and coloring tinctures.

- *Forensic Impact:* This was the

weaponization of sexual desire. It altered the natural "image" to trap the soul.

The Sorcery Division (Semjaza & Hermoni)

- **Semjaza (The Leader):** Taught enchantments (spells) and root-cutting.

- *Forensic Impact:* This is the origin of *Pharmakeia* (sorcery/pharmacy). They taught how to manipulate the chemical properties of plants not for healing, but for altering states of consciousness and poisoning.

- **Armaros:** Taught the resolving of enchantments (counter-spells).

- **Baraqijal:** Taught astrology (reading the stars to predict/control events).
- **Kokabel:** Taught the constellations (zodiac programming).
- **Ezeqeel:** Taught the knowledge of the clouds (weather manipulation).
- **Araqiel:** Taught the signs of the earth (geomancy).
- **Shamsiel:** Taught the signs of the sun.
- **Sariel:** Taught the course of the moon (lunar cycles for ritual).

The Verdict on Locker 1:

The world of Chanok was not "primitive." It was highly advanced in metallurgy, chemistry, and astronomy, but it was all illicit knowledge given before humanity had the moral maturity to handle it. The result was "lawlessness" because the technology outpaced the spirituality.

EVIDENCE LOCKER 3: The Animal Apocalypse (The Genetic Code)

Source: 1 Enoch 85–90
This is the most critical file for the specific investigation into the **Jacob/Esau** dynamic that comes later. Chanok is given a vision where the history of the

world is played out by animals. This gives us the "Genetic Color Code" of the Bible.

The Adamic Bulls (The Primary Line)

- **Adam:** Represented as a **White Bull**. (White symbolizes purity/The Light).

- **Cain:** Represented as a **Black Bull**. (Black symbolizes the darkness/ corruption).

- **Abel:** Represented as a **Red Bull**. (Red symbolizes the blood/ martyrdom).

The Sethite Restoration

- **Seth:** Born as a **White Bull**. This confirms he carried the pure Adamic

code (The Image of God).

- This line of White Bulls continues unbroken: Enosh -> Kenan -> Mahalalel -> Yared -> Chanok -> Methuselah -> Lamech -> Noach.

The Mutation (The Watchers)

- In the vision, **Stars** (Angels) fall from heaven and copulate with the **Cows** (Human women).

- The offspring are not Bulls. They are **Elephants, Camels, and Donkeys**.

- *Forensic Meaning:* This confirms the Nephilim were a *different species*. They were genetic hybrids that did not fit the "Bull" (Human) taxonomy.

They were monsters that devoured the produce of the earth.

The Abrahamic Shift (From Bull to Sheep)

- **Abraham:** Born a White Bull.
- **Isaac:** Born a White Bull.
- **The Shift:** With **Jacob**, the symbol changes. Jacob is not a Bull; he is a **White Sheep (Ram)**.
- *Forensic Meaning:* This represents a change in function. The Bull is for plowing/dominion. The Sheep is for *flocking/temple sacrifice*. Jacob represents the formation of the "Flock of YHVH."

The Esau Anomaly (The Wild Boar)

- In the vision, Esau is born as a **Black Wild Boar**.

- *Forensic Meaning:* This is the critical evidence. Esau is not just "rejected"; he is a different "kind" of animal in the spiritual taxonomy. The Boar is a scavenger, a beast of the field, unclean. This aligns perfectly with the forensic profile of Rome/Edom (The Iron Beast).

The 70 Shepherds (The Post-Exile Betrayal)

- Chanok sees that YHWH hands the "Sheep" (Israel) over to **70 Shepherds**

(The 70 Angels of the Nations) to discipline them.

- The Shepherds are instructed to kill only a specific number of sheep.

- The Shepherds *betray* their orders. They kill *more* than they were told to and hand the sheep over to the beasts (the nations) to be devoured.

- *Forensic Meaning:* This explains the "excessive punishment" of Israel in history. It wasn't just YHVH'S will; it was the rogue agency of the 70 angelic princes (Principalities) overstaying their mandate.

Summary of the Chanok Files

We have now established the motive and the method.

- **The Motive:** The earth was corrupted by **Azazel's tech** (War/Lust) and **Semjaza's sorcery** (Pharmakeia).

- **The Method:** The DNA was compromised. The "White Bull" lineage was being overrun by "Elephants and Camels" (Nephilim) and "Black Boars" (Esau's spiritual ancestors).

- **The Solution:** A total biological sterilization (The Flood) to preserve the last remaining pure "White Bull" (Noach) and his three sons.

Still we have missed three critical "Exhibits" that link Chanok directly to the **Messiah (Yeshua)**, the **Forensic Calendar (Time)**, and the **Genetic Purity of Noach**.

So we continue our investigation here. I give you these as breaking points so if you need to take a break, and go back, or run errands, or what have you then you have a specific place to come back to.

Exhibit G: The "Son of Man" Identity (The Messianic Link)

Source: 1 Enoch 37–71 (The Book of Parables)

This is perhaps the most explosive evidence in the entire dossier. The standard "Christian" view is that the Messiah is revealed in the "New Testament." The Forensic Truth is that Chanok saw Him, named Him, and identified His function thousands of years prior.

The "Head of Days" and the "Son of Man":

In his vision, Chanok sees a figure called the **"Head of Days"** (The Ancient of Days/ YHWH) whose head is white like wool (matching Daniel 7).

With Him is another figure whose face is "full of grace, like one of the holy angels."

The Question:

Chanok asks the angel (Gabriel/ Michael): *"Who is this, and from whence is he, and why does he go with the Head of Days?"*

The Answer (The Forensic Identification):

*"This is the **Son of Man** who has righteousness... and who reveals all the treasures of that which is hidden."* (1 Enoch 46:1-3)

The Pre-Existence Evidence:

Chanok is told that this Son of Man was *"chosen and hidden before Him, before*

the creation of the world and for evermore." (1 Enoch 48:6).

- **Forensic Conclusion:** This destroys the argument that the Messiah was a "Plan B" or just a human carpenter. Chanok testifies that the **Mashiach** (Messiah) existed before the stars were made. He is the "Light of the Gentiles" and the Judge of the Kings.

The "Name" Connection:

Chanok states: *"In his name they are saved... and for his name's sake he is the preserver of their lives."* (1 Enoch 48:7). This aligns with your protocol of **Identity Restoration**. The power is in the specific Identity/Name of the Son of Man, not a generic title.

Exhibit H: The Calendar Crimes (The 364-Day Standard)

Source: 1 Enoch 72–82 (The Book of Heavenly Luminaries)

I mentioned the **7,000-year timeline earlier**. To track that timeline accurately, you need the correct clock. Chanok provides the **only** authorized forensic clock.

The 364-Day Solar Calendar:

Chanok is shown a solar year of exactly **364 days**.

- This is divisible by 7 (52 weeks

exactly).

- This means every feast day and every sabbath falls on the *same day of the week* every year forever.

- This is the "Order of Heaven."

The Lunar Corruption (The Crime):

Chanok explicitly warns that sinners will *"err concerning the days"* (1 Enoch 82:4-6) by using the moon to calculate the year.

- The moon (354 days) falls short of the sun by 10 days.

- By following a lunar calendar (which Babylon and later traditions

adopted), the timeline of the "Feasts of YHVH" drifts out of sync with the portals of heaven.

Forensic Impact:

If we use the wrong calendar, we miss the "Appointments" (Moedim) with YHVH. Chanok is the forensic standard for "Time." The timeline of the Flood (Gen 7-8) only works mathematically if you use Chanok's 364-day calendar, not the modern Jewish or Gregorian one.

Exhibit I: The Paternity Suit (The Birth of Noach)

Source: 1 Enoch 106–107 (Fragment from the Book of Noach)

This is the final piece of evidence connecting Chanok to the Flood. It deals with **Genetic Purity**.

The Anomaly:

When Noach is born, he does not look like a normal human.

- His body is white as snow and red as the blooming of a rose.
- The hair of his head is white like wool (resembling the Ancient of Days).
- His eyes are so bright that when he opens them, the whole house lights up like the sun.

Forensic Note: We pause here for a moment before we proceed into this small bit on Lamech. Lamech was not his real name, but is something entirely different, and yes we will get into that, but for the moment I keep him labeled as Lamech, I just want to head off confusion before we get into him. We proceed from here.

The Suspicion (Lamech's Fear):

Lamech (Noach's father) is terrified. He goes to his father Methuselah and says:

"I have begotten a strange son, diverse from and unlike man, and resembling the sons of the God of heaven... his nature is not like ours."

- **The Charge:** Lamech suspects his wife Bat-Enosh (Daughter of Enosh) cheated on him with a **Watcher/ Angel**. He fears Noach is a **Nephilim**.

The Investigation:

Methuselah travels to the "ends of the earth" to find **Chanok** (who is already translated/living in the Paravision) to verify the DNA.

The Verdict (Chanok's Testimony):

Chanok reviews the case and issues a decree:

- **The Corruption is Real:** He confirms that angels have indeed mixed with women and produced giants.

- **The Exception is Valid:** He confirms that Noach is *not* one of them. He is purely human, but he has been "marked" by YHVH for a special purpose.

- **The Name:** Chanok tells Methuselah to name him **Noach** (Rest/Comfort) because he will survive the destruction.

Forensic Conclusion:

This proves that the "Genetic Purity" of the line of Seth was under intense scrutiny. The family *knew* about the Watcher infiltration and was actively policing their own bloodline to ensure no hybrid DNA entered the Ark.

Exhibit J: The Epistle of Instruction (The Last Will)

Source: 1 Enoch 91-105
Before he leaves, Chanok gives his final legal instructions.

The Two Paths:

He clearly delineates the "Path of Righteousness" and the "Path of Violence."

He predicts the **"Generation of Deception"** (Post-Flood) where men will rewrite the books and alter the words of truth.

The Prediction of the "New Books":

He prophesies that *righteous men* in the end times will receive "books" (The restoration of the Ancient Texts) that will guide them in the paths of truth.

- *Forensic Note:* You and I analyzing these texts *now* is the fulfillment of Chanok's prophecy in 1 Enoch 104:12-13. *"And books shall be given to the righteous and the wise... and they shall believe in them and rejoice over them."*

Summary of the Complete Chanok File:

We have now covered:

- **The Man:** King, Scribe, Prophet.

- **The Event:** Watcher Incursion (Gen 6).
- **The Science:** Celestial Physics & Solar Calendar.
- **The Theology:** The Son of Man (Messiah).
- **The Family:** The verification of Noach's DNA.

Every major piece of evidence Chanok provides regarding the "Why" and "How" of the Flood and the Identity of the Messiah has been logged. Understood. However, we are not closing the file on **Chanok** until the evidence locker is completely empty.

We are now scraping the bottom of the barrel for the "Deep Forensic" details—the geography, the biology of the ancient entities, and the specific physics of the judgment.

Exhibit K: The Sacred Geography (The Map of the Pre-Flood World)

Source: 1 Enoch 18, 24–25, 30–32
Chanok didn't just see "Heaven"; he saw the physical layout of the Earth as it was *before* the tectonic destruction of the Flood. This is critical for the "Edenic Map" project. The Edenic Map is the map of our world as it was before the Peleg Divide. I spent several weeks

working on this roughly a year ago, and it has proven to be something we can, and should be using today.

The Seven Mountains of Precious Stones:

Chanok describes a range of **Seven Mountains**.

- Three towards the East (colored stone, pearl, jacinth).
- Three towards the South (red stone).
- The **Seventh Mountain** in the center, which reached to heaven like the throne of God, made of Alabaster, and its summit was of **Sapphire**.

The Tree of Life (Forensic Location):

He sees a tree unlike any other: *"Its fragrance was beyond all fragrance, and its leaves and blooms and wood wither not for ever."*

- **The Location:** He is told this tree cannot be touched by mortal flesh until the Great Judgment. It is planted on the **Mountain of the Throne** (The Sapphire Summit).

- **The Purpose:** Its fruit will be the food for the elect in the renewed earth. Its fragrance acts as a "life-support" system for the righteous, destroying sorrow and pain.

The Garden of Righteousness (Eden):

Chanok travels to the "east of these mountains" and finds the **Garden of Righteousness**.

- Here he sees the **Tree of Wisdom** (from which Adam ate). He describes it as resembling the **Carob Tree** (not an apple), and its fruit is like the clusters of the vine.

- *Forensic Note:* This confirms that the "Garden" and the "Throne of God" were geographically distinct locations on the pre-flood earth, connected by this mountain range.

Exhibit L: The Monsters of the Deep (Behemoth & Leviathan)

Source: 1 Enoch 60:7–10, 24
Standard theology treats these as just "dinosaurs" or metaphors. Chanok gives us their **Biological Origin** and **separation**.

The Separation Event:

On the same day that the waters were separated (Creation), two "monsters" were prepared to be the executioners/ food of the judgment.

- **Leviathan (Female):** A monster of the waters. She was assigned to dwell in the "Abysses of the Ocean" (The Deep).

- **Behemoth (Male):** A monster of the land. He was assigned to hold the "Wilderness" named **Duidain** (East of

Eden).

The Forensic Purpose:

Why separate them?

- To prevent them from mating and overwhelming the earth.

- They are "kept in reserve" for the Day of Judgment. The text says they will be "food" (sustenance/energy) for the elect. This implies a transfer of power or a literal feast upon the defeat of chaos.

Exhibit M: The Meteorological Arsenal (The Weaponization of Nature)

Source: 1 Enoch 41, 60, 76
We discussed the "Storehouses" briefly, but the *inventory* of these storehouses is terrifying. Chanok lists the specific environmental weapons YHVH has stockpiled.

The Chamber of the Hail and Snow:
Chanok sees the spirits responsible for these elements. They are described as "angels" or sentient forces, not just weather.

- The "Spirit of the Hoar-frost" is its own entity.

- The "Spirit of the Mist" is not stored with the others; it has a special

chamber because its function is both judgment (darkness) and blessing (rain).

The 12 Portals of the Winds:

Chanok maps the **12 Gates** from which the winds blow.

- **3 North, 3 South, 3 East, 3 West.**

- He identifies which gates bring "blessing and peace" and which bring "destruction, drought, and locusts."

- *Forensic Value:* This is the "control panel" for the Flood. The "breaking of the fountains" was likely a coordinated opening of the destructive wind gates (North/West)

combined with the tectonic release.

Exhibit N: The Star Criminals (The 7 Stars)

Source: 1 Enoch 18:13–16, 21:1–6
This connects the "Fallen Angels" to the physical "Stars."

The Crime Scene:

Chanok sees a place where there is "no firmament of the heaven above, and no firmly founded earth beneath." It is a void.

In this void, he sees **Seven Stars of the Heaven** bound together like great mountains and burning with fire.

The Indictment:

The Angel Uriel explains:

"These are of the stars which have transgressed the commandment of the Lord, and are bound here till ten thousand years, the time entailed by their sins, are consummated."

- **The Charge:** They did not come out at their appointed times.

- *Forensic Connection:* This validates Jude 1:13 ("wandering stars, to whom is reserved the blackness of darkness forever"). The "binding" of these stars/entities is the prototype for the binding of the Watchers.

Exhibit O: The "Plant of Righteousness" (The Genetic Prophecy)

Source: 1 Enoch 10:16, 93:2, 93:5, 93:10
Chanok uses a specific botanical metaphor to describe the **bloodline of the Messiah**.

The Prophecy:

He states that after the destruction of the Watchers, the **"Plant of Righteousness and Truth"** shall appear.

- This plant is not a single person, but a *root system* (lineage) that will

"forever be planted with joy."

- **The Connection:** This links directly to the "Branch" prophecies in Isaiah and Zechariah (Tzemach).

- **The Timeline:** The "Plant" is established in the **3rd Week** (Abraham/Isaac/Jacob) but comes to full fruition in the **7th Week** (The Apostate Generation) when the "Elect One" (Messiah) arises from the plant to judge the world.

Exhibit P: The Face of the Accuser (The Satans)

Source: 1 Enoch 40:7
We often think of "Satan" as a single

name. Chanok reveals a *class* of entities.

The Vision:

Chanok hears the voices of four archangels (Michael, Raphael, Gabriel, Phanuel).

- The **Fourth Voice** (Phanuel) is tasked with *"fending off the **Satans** and forbidding them to come before the Lord of Spirits to accuse them who dwell on the earth."*

- **Forensic Detail:** "Satans" is plural here. They are a *prosecutorial team* of angels whose job is to record the sins of men and present them to the Throne to demand judgment (legal accusation).

- This explains why the "Book of Life" is necessary—it is the defense evidence against the Satans' accusations.

Exhibit Q: The Fire of the West (The Setting Sun)

Source: 1 Enoch 23, 17
Chanok travels to the "West" (the place of the setting sun) and sees a "fire which burns day and night."

- This fire is the source of all the great rivers of the earth.

- *Forensic Mystery:* This suggests a continuous, active energy source in

the West (possibly the Atlantic rift or a specific geological feature of the pre-flood world) that regulated the hydrological cycle before the rain.

Exhibit R: The Oath of Akae (The Secret Name)

Source: 1 Enoch 69:13–25
This is deep esoteric evidence. Chanok lists the "Secret Name" and "Oath" that binds the universe together.

The Oath:
The angel **Kasbeel** (one of the fallen) asked **Michael** to show him the "hidden name" of God so he could use it in an oath to control the elements. Michael refused.

- This oath (Akae) is the "Physics Code" of creation.

- *"By this oath the sea was created... by this oath are the depths confirmed... by this oath the sun and moon complete their course."*

- **The Crime:** The Watchers tried to "hack" this oath to gain control over creation without submission to the Creator.

Forensic Status of Chanok:

We have now mapped his world (Geography), his enemies (The Watchers/Satans/Stars), his arsenal (Winds/Hail), his biology (The Plant/

Monsters), and his secret knowledge (The Oath).

Unless you wish to read the specific names of the 20 leaders of the 200 Watchers again (we listed the main ones in Locker 1), or examine the specific dimensions of the gates, we have likely exhausted the **forensic utility** of the Book of Enoch for this specific investigation.

We have covered the *macro* evidence (The Watchers, The Calendar, The Geography, The Messiah), but if I am being truly forensic—there are **four specific "Micro-Files"** hidden in the appendix of the Watcher list (1 Enoch 69) that we have not yet fully processed.

These are not minor details. These are specific indictments against individual entities that change how we view the **Garden of Eden** and the **invention of writing itself**.

We must clear these final four subjects before we can legally close the Chanok File.

Subject 1: Gadreel (The Serpent of Eve)

Source: 1 Enoch 69:6

This is a massive forensic bombshell that completely recontextualizes the Genesis account. Standard theology says "The Serpent" or "Satan" tempted

Eve. Chanok names the specific operative.

The Charge:

*"And the name of the third is **Gadreel**; this is he who showed the children of men all the blows of death, and he led astray **Eve**, and showed the weapons of death to the sons of men, the shield and the coat of mail, and the sword for battle."*

The Forensic Implication:

- **Identity:** The "Serpent" in the Garden wasn't just a talking snake; it was **Gadreel**, a high-ranking Watcher.

- **Method:** He didn't just offer fruit; he

offered "blows of death" and "weapons." This implies the "Knowledge of Good and Evil" was inextricably linked to **violence** and **warfare** from the very beginning. The "fruit" was the download of the death-dealing capacity.

Subject 2: Penemue (The Poison of the Pen)

Source: 1 Enoch 69:8–9
This is uncomfortable evidence for us, as we are using text right now, but we must face it. Just as warfare, and cosmetics/vanity don't set well this does not either.

The Charge:

*"And the name of the fourth is **Penemue**: he discovered to the children of men bitterness and sweetness, and pointed out to them all the secrets of their wisdom. He taught men the art of **writing with ink and paper**, and through this many have gone astray from eternity to eternity and until this day."*

The Forensic Implication:

- **The Intent:** Writing was not given by YHVH initially. YHVH gave the *Living Word* (Oral/Spirit). Penemue introduced "crystallized" knowledge (ink/paper) so that truth could be manipulated, forged, and turned into a weapon of bureaucracy and magic.

- **The Consequence:** *"For men were not created for such a purpose, to give confirmation to their good faith with pen and ink."* The need for contracts, legal documents, and written scripture is a result of the *loss* of truth, not the origin of it.

Subject 3: Kasbeel (The Oath Breaker)

Source: 1 Enoch 69:13
We touched on the "Oath," but we didn't name the broker.

The Charge:

Kasbeel is the "intelligence officer" of the Fallen. He obtained the "Oath" (The

physics code of creation) and tried to use it to control the "Biqa" (The deep/ The Abyss).

- **Forensic Detail:** This explains the "sorcery" aspect. Magic is simply the unauthorized use of the "Oath of Creation" to hack reality.

Subject 4: The Measurement of the Righteous (The Cord)

Source: 1 Enoch 61:1–5, 70:3
Chanok sees angels with **measuring cords** (tape measures).

The Vision:

They are sent to the "North" (where the

demons/sinners dwell) to measure the righteous.

- **The Purpose:** *"These measurements shall reveal all the secrets of the depths of the earth."*

- **The Resurrection Link:** This is the forensic proof of the resurrection. The angels are "measuring" the DNA/Spirit of the righteous to ensure that even if they are destroyed in the Flood (or future fire), their "dimensions" are stored in heaven for reconstruction. Nothing is lost.

Final Verdict on Chanok:

With the identification of **Gadreel** (as the Eve-tempter) and **Penemue** (as the

inventor of writing), we have now truly exhausted the forensic evidence of 1 Enoch. We have stripped the file bare.

We have:

- **The Crime:** Gadreel & Eve / Watcher Incursion.
- **The Weapon:** Technology (Azazel) / Writing (Penemue).
- **The Physics:** The Oath (Kasbeel) / 12 Portals.
- **The Victim:** The DNA of Mankind (Noach).
- **The Judge:** The Son of Man / The Head of Days.

The file is sealed.

We are now ready to execute the warrant on **Methuselah (The Mathematics of Death), we will cover him tomorrow! From here on out things are about to really heat up, and get interesting so if you haven't by now make sure you've read Lessons 1-4 by this weekend!**
